

# September 2006 — January 2007

Dines Bjørner

September 5, 2006

## Contents

<b>1 Reports, Papers and Drafts</b>	<b>1</b>
<b>2 Calendar</b>	<b>2</b>

## 1 Reports, Papers and Drafts

1. On Domain and Domain Engineering: Prerequisite for Trustworthy Software, A Necessity for Believable Management, “Management” Document<sup>1</sup>, March 2006
2. Possible Collaborative “Domain” Projects, “Management” Brief<sup>2</sup>, March 2006
3. Domains and Problem Frames. Invited keynote talk<sup>3</sup> at IWAAPF<sup>4</sup>, an ICSE 2006<sup>5</sup> Satellite Event, Shanghai, May 2006:
4. Public Government, A Domain Analysis. Incomplete. To be rewritten into possibly publishable paper: “paper”<sup>6</sup> and slides<sup>7</sup>. Was presented June 1, 2006: e-Macao<sup>8</sup>
5. Verified Software for Ubiquitous Computing, Project Proposal, Call for Participation: PS<sup>9</sup>. Shorter version to be presented at 1AWCVS, Macau 29-31 Oct., 2006<sup>10</sup>
6. The Triptych Process Model: Process Assessment and Improvement: Paper<sup>11</sup> and slides<sup>12</sup> for invited keynote talk at JASPIC 2006<sup>13</sup> Oct. 12–13, Tsukuba
7. A Family of License Languages, Incomplete. Working report<sup>14</sup> for the JAIST Domain Engineering and Digital Rights<sup>15</sup> effort, August 2006
8. Domain Engineering, Chapter<sup>16</sup> for BCS FACS Springer Book, eds. J.P.Bowen and P.Boca, August 2006.

9. Documents: A Domain Analysis: report<sup>17</sup> and slides<sup>18</sup>. To be edited into a possibly publishable paper.
10. Transportation Nets: incomplete report<sup>19</sup> August 2006. To be rewritten into a possibly publishable paper
11. The Rôle of Domain Engineering in Software Development. Invited keynote paper<sup>20</sup> and talk<sup>21</sup>: IPSJ/SIGSE Software Engineering Symposium 2006<sup>22</sup>, Oct. 21, 2006, Tokyo
12. Security Rules: Examples and Thoughts on Modelling, grossly incomplete. slide presentation<sup>23</sup> at IBM, 8 Sept., 2006, Tokyo
13. Editing a book (with Martin Henson): Logics of Specification Languages, to be published by Springer, EATCS Textbook Series. Book is a result of the Stara Lesna Summer School, June 2004: <http://cswww.essex.ac.uk/staff/hensm/ssl/>
14. Composing an approx. 120 page essay: Software Engineering - An Unended Quest, A critique of my book: Did I achieve what I wanted, shortcomings, strengths?

## 2 Calendar

	September	October	November	December	January 2007
1			SEFM'2006 Macau	RISC/Linz	Vacation
2			SEFM'2006 Macau		
3			SEFM'2006 Macau		
4		Vacation, 2 days			
5			Travel		Seminars @ NUS
6					
7					
8	IBM TRL				IFIP WG2.3 Sydney
9					IFIP WG2.3 Sydney
10					IFIP WG2.3 Sydney
11					IFIP WG2.3 Sydney
12		IPSJ/SIGSE		Kyushu Seminars	IFIP WG2.3 Sydney
13		IPSJ/SIGSE		Kyushu Seminars	
14	Travel				
15	IMM DTU			Vacation	Seminars @ NUS
16					Seminars @ NUS
17					Vacation
18	AE/IS Budapest				
19	AE/IS Budapest	JASPIC			
20	AE/IS Budapest	JASPIC			
21	AE/IS Budapest				
22	RISC/Linz				Seminars @ NUS
23			Todai Seminar		Seminars @ NUS
24			TITech Seminar		Travel
25	Travel				
26					
27		Travel			
28			Berlin Univs.	Travel	
29			DFG FaM	Vacation	
30		1AWCSV	Vienna Univs.		
31		1AWCSV	RISC/Linz
