# 11. Table of Contents

## Contents

<b>1. Domain Analysis &amp; Description</b>	9
<b>1.1. Introduction</b>	15
1.1.1. <b>The TripTych Approach to Software Engineering</b>	18
1.1.2. <b>Method and Methodology</b>	23
1.1.2.1. <b>Method</b>	23
1.1.2.2. <b>Discussion</b>	25
1.1.2.3. <b>Methodology</b>	30
1.1.3. <b>Computer and Computing Science</b>	31
1.1.4. <b>What Is a Manifest Domain?</b>	34
1.1.5. <b>What Is a Domain Description?</b>	42
1.1.6. <b>Towards a Methodology of Domain Analysis &amp; Description</b>	50
1.1.7. <b>One Domain – Many Models?</b>	65
1.1.8. <b>Formal Concept Analysis</b>	69
1.1.8.1. <b>A Formalisation</b>	70
1.1.8.2. <b>Types Are Formal Concepts</b>	76
1.1.8.3. <b>Practicalities</b>	77
1.1.8.4. <b>Formal Concepts: A Wider Implication</b>	79
<b>1.2. Endurant Entities</b>	80
1.2.1. <b>General</b>	80
a: <b>Analysis Prompt: is-entity</b>	81
1.2.2. <b>Endurants and Perdurants</b>	83
b: <b>Analysis Prompt: is-endurant</b>	87
c: <b>Analysis Prompt: is-perdurant</b>	87
1.2.3. <b>Discrete and Continuous Endurants</b>	90
d: <b>Analysis Prompt: is discrete</b>	94
e: <b>Analysis Prompt: is continuous</b>	94
1.2.4. <b>Parts, Components and Materials</b>	95
1.2.4.1. <b>General</b>	95
1.2.4.2. <b>Part, Component and Material Prompts</b>	103
f: <b>Analysis Prompt: is part</b>	103
g: <b>Analysis Prompt: is component</b>	104
h: <b>Analysis Prompt: is material</b>	105

1.2.5. <b>Atomic and Composite Parts</b>	106
i: <b>Analysis Prompt: is-atomic</b>	112
j: <b>Analysis Prompt: is-composite</b>	112
1.2.6. <b>On Observing Part Sorts</b>	114
1.2.6.1. <b>Types and Sorts</b>	114
1.2.6.2. <b>On Discovering Part Sorts</b>	115
k: <b>Analysis Prompt: observe-parts</b>	117
1.2.6.3. <b>Part Sort Observer Functions</b>	120
1: <b>Description Prompt: observe-part-sorts</b>	121
1.2.6.4. <b>On Discovering Concrete Part Types</b>	126
l: <b>Analysis Prompt: has-concrete-type</b>	126
2: <b>Description Prompt: observe-part-type</b>	127
1.2.6.5. <b>Forms of Part Types</b>	131
1.2.6.6. <b>Part Sort and Type Derivation Chains</b>	132
1.2.6.7. <b>Names of Part Sorts and Types</b>	134
1.2.6.8. <b>More On Part Sorts and Types</b>	138
1.2.6.9. <b>External and Internal Qualities of Parts</b>	143
1.2.6.10. <b>Three Categories of Internal Qualities</b>	144
1.2.7. <b>Unique Part Identifiers</b>	146
3: <b>Description Prompt: observe-unique-identifier</b>	149
1.2.8. <b>Mereology</b>	152
1.2.8.1. <b>Part Relations</b>	153
1.2.8.2. <b>Part Mereology: Types and Functions</b>	155
m: <b>Analysis Prompt: has-mereology</b>	155
4: <b>Description Prompt: observe-mereology</b>	157
1.2.8.3. <b>Update of Mereologies</b>	164
1.2.8.4. <b>Formulation of Mereologies</b>	168
1.2.9. <b>Part Attributes</b>	169
1.2.9.1. <b>Inseparability of Attributes from Endurants</b>	169
1.2.9.2. <b>Attribute Quality and Attribute Value</b>	170
1.2.9.3. <b>Endurant Attributes: Types and Functions</b>	171
n: <b>Analysis Prompt: attribute-names</b>	174
5: <b>Description Prompt: observe-attributes</b>	177
1.2.9.4. <b>Attribute Categories</b>	183
1.2.9.5. <b>Access to Attribute Values</b>	193
1.2.9.6. <b>Shared Attributes</b>	195
<b>Example 42: Shared Attributes</b>	197
1.2.10. <b>Components</b>	203
o: <b>Analysis Prompt: has-components</b>	204
6: <b>Description Prompt: observe-component-sorts</b>	205

1.2.11. Materials . . . . .	209
p: Analysis Prompt: has-materials . . . . .	210
7: Description Prompt: observe-materialsorts . . . . .	211
1.2.11.1. Materials-related Part Attributes . . . . .	214
1.2.11.2. Laws of Material Flows and Leaks . . . . .	218
1.2.12. "No Junk, No Confusion" . . . . .	224
1.2.13. Discussion of Endurants . . . . .	239
1.3. Perdurant Entities . . . . .	242
1.3.1. States . . . . .	245
1.3.2. Actions, Events and Behaviours . . . . .	247
1.3.2.1. Time Considerations . . . . .	249
1.3.2.2. Actors . . . . .	251
1.3.2.3. Parts, Attributes and Behaviours . . . . .	253
1.3.3. Discrete Actions . . . . .	254
1.3.4. Discrete Events . . . . .	256
1.3.5. Discrete Behaviours . . . . .	259
1.3.5.1. Channels and Communication . . . . .	261
1.3.5.2. Relations Between Attribute Sharing and Channels . . . . .	263
1.3.6. Continuous Behaviours . . . . .	268
1.3.7. Attribute Value Access . . . . .	271
1.3.7.1. Access to Static Attribute Values . . . . .	271
1.3.7.2. Access to External Attribute Values . . . . .	272
1.3.7.3. Access to Programmable Attribute Values . . . . .	276
1.3.8. Perdurant Signatures and Definitions . . . . .	277
1.3.9. Action Signatures and Definitions . . . . .	279
1.3.10. Event Signatures and Definitions . . . . .	285
1.3.11. Discrete Behaviour Signatures and Definitions . . . . .	289
Process Schema I: Abstract is_composite(p) . . . . .	295
Process Schema II: Concrete is_composite(p) . . . . .	297
Process Schema III: is_atomic(p) . . . . .	297
Process Schema IV: Core Process (I) . . . . .	302
Process Schema V: Core Process (II) . . . . .	305
1.3.12. Concurrency: Communication and Synchronisation . . . . .	306
1.3.13. Summary and Discussion of Perdurants . . . . .	307
1.3.13.1. Summary . . . . .	308
1.3.13.2. Discussion . . . . .	309
6. A Domain Description . . . . .	310
6.1. Endurants . . . . .	310

6.1.1. <a href="#">Domain, Net, Fleet and Monitor</a>	310
6.1.2. <a href="#">Hubs and Links</a>	313
6.1.3. <a href="#">Unique Identifiers</a>	315
6.1.4. <a href="#">Mereology</a>	318
6.1.5. <a href="#">Attributes, I</a>	320
6.1.6. <a href="#">Attributes, II</a>	322
6.1.7. <a href="#">Routes</a>	333
6.2. <a href="#">Perdurants</a>	334
6.2.1. <a href="#">Vehicle to Monitor Channel</a>	334
6.2.2. <a href="#">Link Disappearance Event</a>	335
6.2.3. <a href="#">Road Traffic</a>	336
<b>7. Requirements</b>	<b>352</b>
<b>7.1. Introduction</b>	<b>356</b>
7.1.1. <a href="#">General Considerations</a>	356
7.1.2. <a href="#">Four Stages of Requirements Development</a>	366
7.1.2.1. <a href="#">Problem and/or Objective Sketch</a>	367
7.1.2.2. <a href="#">Systems Requirements</a>	369
7.1.2.3. <a href="#">User and External Equipment Requirements</a>	374
7.1.2.4. <a href="#">Functional Requirements</a>	376
<b>7.2. Domain Requirements</b>	<b>379</b>
7.2.1. <a href="#">Domain Projection</a>	381
7.2.1.1. <a href="#">Domain Projection — Narrative</a>	383
7.2.1.2. <a href="#">Domain Projection — Formalisation</a>	385
7.2.1.3. <a href="#">A Projection Operator</a>	393
7.2.2. <a href="#">Domain Instantiation</a>	394
7.2.2.1. <a href="#">Domain Instantiation — Narrative</a>	396
7.2.2.2. <a href="#">Domain Instantiation — Formalisation</a>	401
7.2.2.3. <a href="#">Domain Instantiation — Formalisation: Well-formedness</a>	402
7.2.2.4. <a href="#">Domain Instantiation — Abstraction</a>	410
7.2.2.5. <a href="#">An Instantiation Operator</a>	413
7.2.3. <a href="#">Domain Determination</a>	414
7.2.3.1. <a href="#">Domain Determination: Example</a>	415
7.2.3.2. <a href="#">A Domain Determination Operator</a>	423
7.2.4. <a href="#">Domain Extension</a>	424
7.2.4.1. <a href="#">The Core Requirements Example: Domain Extension</a>	425
7.2.4.2. <a href="#">A Domain Extension Operator</a>	454
7.2.5. <a href="#">Requirements Fitting</a>	455
7.2.5.1. <a href="#">Some Definitions</a>	457

7.2.5.2. Requirements Fitting Procedure — A Sketch . . . . .	464
7.2.5.3. Requirements Fitting – An Example . . . . .	465
7.2.6. Domain Requirements Consolidation . . . . .	468
7.3. Interface Requirements . . . . .	469
7.3.1. Shared Phenomena . . . . .	470
7.3.2. Shared Endurants . . . . .	474
7.3.2.1. Data Initialisation . . . . .	478
7.3.2.2. Data Refreshment . . . . .	494
7.3.3. Shared Actions, Events and Behaviours . . . . .	495
7.4. Machine Requirements . . . . .	497
7.4.1. Delineation of Machine Requirements . . . . .	497
7.4.1.1. On Machine Requirements . . . . .	497
7.4.1.2. Machine Requirements Facets . . . . .	499
7.4.2. Performance Requirements . . . . .	500
7.4.3. Dependability Requirements . . . . .	502
7.4.3.1. Failures, Errors and Faults . . . . .	502
7.4.3.2. Accessibility . . . . .	513
7.4.3.3. Availability . . . . .	516
7.4.3.4. Integrity . . . . .	519
7.4.3.5. Safety . . . . .	525
7.4.3.6. Security . . . . .	527
7.4.3.7. Robustness . . . . .	530
7.4.4. Maintenance Requirements . . . . .	532
7.4.4.1. Delineation and Facets of Maintenance Requirements . . . . .	532
7.4.4.2. Adaptive Maintenance . . . . .	534
7.4.4.3. Corrective Maintenance . . . . .	537
7.4.4.4. Perfective Maintenance . . . . .	540
7.4.4.5. Preventive Maintenance . . . . .	544
7.4.4.6. Extensional Maintenance . . . . .	545
7.4.5. Platform Requirements . . . . .	546
7.4.5.1. Delineation and Facets of Platform Requirements . . . . .	546
7.4.5.2. Development Platform . . . . .	548
7.4.5.3. Execution Platform . . . . .	549
7.4.5.4. Maintenance Platform . . . . .	550
7.4.5.5. Demonstration Platform . . . . .	551
7.4.6. Documentation Requirements . . . . .	553
7.4.7. Discussion . . . . .	556
8. Conclusion . . . . .	557

8.1. <b>Various Observations</b> . . . . .	557
8.1.1. <b>Tony Hoare's Summary on 'Domain Modeling'</b> . . . . .	557
8.1.2. <b>Beauty Is Our Business</b> . . . . .	560
8.2. <b>Acknowledgements</b> . . . . .	561
<b>9. Discussion of Research Topics</b>	562
9.1. <b>Domain Science &amp; Engineering Topics</b> . . . . .	563
9.1.1. <b>Analysis &amp; Description Calculi for Other Domains</b> . . . . .	564
9.1.2. <b>On Domain Description Languages</b> . . . . .	567
9.1.3. <b>Ontology Relations</b> . . . . .	571
9.1.4. <b>Analysis of Perdurants</b> . . . . .	572
9.1.5. <b>Commensurate Discrete and Continuous Models</b> . . . . .	573
9.1.6. <b>Interplay between Parts, Materials and Components</b> . . . . .	575
9.1.7. <b>Dynamics</b> . . . . .	576
9.1.8. <b>Precise Descriptions of Manifest Domains</b> . . . . .	578
9.1.9. <b>Towards Mathematical Models of Domain Analysis &amp; Description</b> . . . . .	584
9.1.10. <b>Laws of Descriptions: A Calculus of Prompts</b> . . . . .	586
9.1.11. <b>Domains and Galois Connections</b> . . . . .	591
9.1.12. <b>Laws of Domain Description Prompts</b> . . . . .	592
9.1.13. <b>Domain Theories:</b> . . . . .	593
9.1.14. <b>External Attributes</b> . . . . .	597
9.2. <b>Requirements Topics</b> . . . . .	598
9.2.1. <b>Domain Requirements Methodology</b> . . . . .	598
9.2.2. <b>Domain Requirements Operator Theory</b> . . . . .	599
9.2.3. <b>Methodology for Interface Requirements</b> . . . . .	600
9.3. <b>Final Words</b> . . . . .	601
<b>10. Bibliography</b>	602
10.1. <b>Bibliographical Notes</b> . . . . .	602
10.1.1. <b>Published Papers</b> . . . . .	603
10.1.2. <b>Reports</b> . . . . .	606
10.2. <b>References</b> . . . . .	608
