

Ekkart Kindler

Publications

(May 2008)

Journals

1. Ekkart Kindler. Invariants, composition, and substitution. *Acta Informatica*, 32:299–312, June 1995.
2. J. Desel, E. Kindler, T. Vesper, and R. Walter. A simplified proof for a self-stabilizing protocol: A game of cards. *Information Processing Letters*, 54:327–328, 1995.
3. Ekkart Kindler and Rolf Walter. Mutex needs fairness. *Information Processing Letters*, 62:31–39, 1997.
4. Ekkart Kindler, Wolfgang Reisig, Hagen Völzer, and Rolf Walter. Petri net based verification of distributed algorithms: An example. *Formal Aspects of Computing*, 9:409–424, 1997.
5. Thomas Baar and Ekkart Kindler. ILF and DAWN for verifying distributed algorithms – an idea for a tool. *Fundamenta Informaticae*, 37(3):201–211, February 1999.
6. Ekkart Kindler and Sibylle Peuker. Integrating distributed algorithms into distributed systems. *Fundamenta Informaticae*, 37(3):291–327, February 1999.
7. E. Kindler and W.M.P. van der Aalst. Liveness, fairness, and recurrence in Petri nets. *Information Processing Letters*, 70(6):269–274, June 1999.
8. Ekkart Kindler and Hagen Völzer. Algebraic nets with flexible arcs. *Theoretical Computer Science*, 262(1–2):285–310, July 2001.
9. Ekkart Kindler and Michael Weber. The Petri Net Kernel – an infrastructure for building Petri net tools. *Software Tools for Technology Transfer*, 3(4):486–497, July 2001.
10. Ekkart Kindler. On the semantics of EPCs: Resolving the vicious circle. *Data and Knowledge Engineering*, 56(1):23–40, January 2006.
11. Nicolas Cuntz and Ekkart Kindler. On the semantics of EPCs - efficient calculation and simulation. *Enterprise Modelling and Information Systems Architectures*, 1:14–24, October 2005.
12. Björn Axenath, Ekkart Kindler, and Vladimir Rubín. AMFIBIA: A meta-model for the integration of business process modelling aspects. *International Journal on Business Process Integration and Management*, 2(2):120–131, 2007.

Conferences

1. Dominik Gomm, Ekkart Kindler, Barbara Paech, and Rolf Walter. Compositional liveness properties of EN-systems. In M. Ajmone Marsan, editor, *Applications and Theory of Petri Nets 1993*, 14th International Conference, volume 691 of *LNCS*, pages 262–281, Chicago, Illinois, USA, June 1993. Springer-Verlag.

2. Ekkart Kindler and Rolf Walter. Arc-typed Petri nets. In J. Billington and W. Reisig, editors, *Application and Theory of Petri Nets 1996, 17th International Conference*, volume 1091 of *LNCS*, pages 289–306. Springer-Verlag, June 1996.
3. Ekkart Kindler. A compositional partial order semantics for Petri net components. In P. Azéma and G. Balbo, editors, *Application and Theory of Petri Nets 1997, 18th International Conference*, volume 1248 of *LNCS*, pages 235–252. Springer-Verlag, June 1997.
4. Jörg Desel and Ekkart Kindler. Proving correctness of distributed algorithms using high-level Petri nets – a case study. In *1998 International Conference on Application of Concurrency to System Design*, pages 177–186, Fukushima, Japan, March 1998. IEEE Computer Society Press.
5. Ekkart Kindler. The interplay of transaction models and memory models. In T. Ozsu, A. Dogac, and O. Ulusoy, editors, *Integrated Design and Process Technology*, volume IDPT-Vol. 2, pages 39–46. Society for Design and Process Science, July 1998.
6. Ekkart Kindler and Hagen Völzer. Flexibility in algebraic nets. In J. Desel and M. Silva, editors, *Application and Theory of Petri Nets 1998, 19th International Conference*, volume 1420 of *LNCS*, pages 345–364. Springer, June 1998.
7. Ekkart Kindler and Tobias Vesper. ESTL: A temporal logic for events and states. In J. Desel and M. Silva, editors, *Application and Theory of Petri Nets 1998, 19th International Conference*, volume 1420 of *LNCS*, pages 365–384. Springer, June 1998.
8. Thomas Baar, Ekkart Kindler, and Hagen Völzer. Verifying intuition – ILF checks DAWN proofs. In S. Donatelli and J. Kleijn, editors, *Application and Theory of Petri Nets 1999, 20th International Conference*, volume 1639 of *LNCS*, pages 404–423. Springer, June 1999.
9. Ekkart Kindler and Michael Weber. The Petri Net Kernel: An infrastructure for building Petri net tools. In *Petri Nets 99, 20th International Conference on Application and Theory of Petri Nets: Petri Net Tool Presentations*, pages 10–19, June 1999.
10. Ekkart Kindler and Michael Weber. Der Petrinetz-Kern: Ein Überblick. In E. Schnieder, editor, *Entwicklung und Betrieb komplexer Automatisierungssysteme, 6. Fachtagung, Band II*, pages 641–642, May 1999.
11. Ekkart Kindler. Petri nets, situations, and automata. In J. Esparza and C. Lakos, editors, *Application and Theory of Petri Nets 2002, 23rd International Conference*, volume 2360 of *LNCS*, pages 217–236. Springer, June 2002.
12. Jonathan Billington, Søren Christensen, Kees van Hee, Ekkart Kindler, Olaf Kummer, Laure Petrucci, Reinier Post, Christian Stehno, and Michael Weber. The Petri Net Markup Language: Concepts, technology, and tools. In W. van der Aalst and E. Best, editors, *Application and Theory of Petri Nets 2003, 24th International Conference*, volume 2679 of *LNCS*, pages 483–505. Springer, June 2003.
13. Ekkart Kindler. On the semantics of EPCs: Resolving the vicious circle. In J. Desel, B. Pernici, and M. Weske, editors, *Business Process Management, Second International Conference, BPM 2004*, volume 3080 of *LNCS*, pages 82–97. Springer, June 2004.
14. Ekkart Kindler and Csaba Páles. 3D-visualization of Petri net models: Concept and realization. In J. Cortadella and W. Reisig, editors, *Application and Theory of Petri Nets 2004, 25th International Conference*, volume 3099 of *LNCS*, pages 464–473. Springer, June 2004.
15. Hagen Völzer, Daniele Varacca, and Ekkart Kindler. Defining fairness. In M. Abadi and Luca de Alfaro, editors, *Concurrency Theory, 16th International Conference, CONCUR 2005*, volume 3653 of *LNCS*, pages 458–472, August 2005.
16. Nicolas Cuntz and Ekkart Kindler. On the semantics of EPCs: Efficient calculation and

- simulation (extended abstract). In W.M.P. van der Aalst, B. Benatallah, F. Casati, and F. Curbera, editors, *Business Process Management, Second International Conference, 3rd International Conference, BPM 2005*, volume 3649 of *LNCS*, pages 398–403. Springer, September 2005.
17. Ekkart Kindler, Vladimir Rubin, and Wilhelm Schäfer. Activity mining for discovering software process models. In B. Biel, M. Book, and V. Gruhn, editors, *Proc. of the Software Engineering 2006 Conference, Leipzig, Germany*, volume P-79 of *LNI*, pages 175–180. Gesellschaft für Informatik, March 2006.
 18. Ekkart Kindler. The Petri Net Markup Language and ISO/IEC 15909-2: Concepts, status, and future directions. In E. Schnieder, editor, *Entwurf komplexer Automatisierungssysteme, 9. Fachtagung*, pages 35–55, May 2006. invited paper.
 19. Ekkart Kindler, Vladimir Rubin, and Robert Wagner. Component Tools: Integrating Petri nets with other formal methods. In S. Donatelli and P. S. Thiagarajan, editors, *Application and Theory of Petri Nets 2006, 27th International Conference*, volume 4024 of *LNCS*, pages 37–56. Springer, June 2006. invited paper.
 20. V. Rubin, C.W. Günther, W.M.P. van der Aalst, E. Kindler, B.F. van Dongen, and W. Schäfer. Process mining framework for software processes. In Qing Wang, Dietmar Pfahl, and David M. Raffo, editors, *Software Process Dynamics and Agility, Proc. of the International Conference on Software Process (ICSP 2007)*, volume 4470 of *LNCS*, pages 169–181. Springer, May 2007.
 21. Joel Greenyer and Ekkart Kindler. Reconciling TGGs with QVT. In Gregor Engels, Bill Opdyke, Douglas C. Schmidt, and Frank Weil, editors, *Model Driven Engineering Languages and Systems, 10th International Conference, MoDELS 2007*, volume 4735 of *LNCS*, pages 16–30. Springer, September 2007.

Book contributions

1. Dominik Gomm and Ekkart Kindler. Causality based proof of a distributed shared memory system. In A. Bode and M. Dal Cin, editors, *Parallel Computer Architectures: Theory, Hardware, Software, Applications*, volume 732 of *LNCS*, pages 133–149. Springer-Verlag, 1993.
2. Ekkart Kindler and Wolfgang Reisig. Verification of distributed algorithms with algebraic Petri nets. In C. Freksa, M. Jantzen, and R. Valk, editors, *Foundations of Computer Science: Potential – Theory – Cognition*, volume 1337 of *LNCS*, pages 261–270. Springer-Verlag, 1997.
3. Ekkart Kindler and Tobias Vesper. ESTL: Some proof techniques. In W. van der Aalst, J.-M. Colom, F. Kordon, G. Kotsis, and D. Moldt, editors, *Petri Net Approaches for Modelling and Validation*, number 1 in *Studies in Computer Science*, pages 53–65. LINCOM, 1999.
4. W. Reisig, E. Kindler, T. Vesper, H. Völzer, and R. Walter. Distributed algorithms for networks of agents. In W. Reisig and G. Rozenberg, editors, *Lectures on Petri Nets II: Applications*, volume 1492 of *LNCS*, pages 331–385. Springer, 1998.
5. Ekkart Kindler, Axel Martens, and Wolfgang Reisig. Inter-operability of workflow applications: Local criteria for global soundness. In W. van der Aalst, J. Desel, and A. Oberweis, editors, *Business Process Management: Models, Techniques, and Empirical Studies*, volume 1806 of *LNCS*, pages 235–253. Springer, 2000.

6. Ekkart Kindler. Serializability, concurrency control and replication control. In G. Saake, K. Schwarz, and C. Türker, editors, *Transactions and Database Dynamics, Proceedings of the 8th International Workshop on Foundations of Models and Languages for Data and Objects, Selected Papers*, volume 1773 of *LNCS*, pages 26–44. Springer, 1999.
7. M. Weber and E. Kindler. The Petri Net Kernel. In H. Ehrig, W. Reisig, G. Rozenberg, and H. Weber, editors, *Petri Net Technologies for Modeling Communication Based Systems*, volume 2472 of *LNCS*, pages 109–123. Springer, 2003.
8. M. Weber and E. Kindler. The Petri Net Markup Language. In H. Ehrig, W. Reisig, G. Rozenberg, and H. Weber, editors, *Petri Net Technologies for Modeling Communication Based Systems*, volume 2472 of *LNCS*, pages 124–144. Springer, 2003.

Monographs

1. Ekkart Kindler. Netze mit strukturierten Marken zur Spezifikation und Analyse paralleler Algorithmen. Diplomarbeit, Technische Universität München, May 1990.
2. Ekkart Kindler. *Modularer Entwurf verteilter Systeme mit Petrinetzen*, volume 1 of *Edition Versal*. Bertz Verlag, December 1995. Zugl.: Dissertation, Technische Universität München.
3. Ekkart Kindler. *Systematische Spezifikation und Verifikation von Datenkonsistenzkriterien*. Habilitationsschrift, Mathematisch-Naturwissenschaftliche Fakultät der Humboldt-Universität zu Berlin, August 2000.
4. Ekkart Kindler and Steffen Manthey. *Automaten, Formale Sprachen und Berechenbarkeit I*. April 2002. Lecture notes for a course held at TU München in 2001/2002 (in German).
5. Ekkart Kindler. *Petrinetze*. July 2002. Lecture notes for a course held at TU München and the University of Paderborn in 2002–2006(in German).
6. Ekkart Kindler. *Semantik*. January 2005. Lecture notes for a course given at the University of Paderborn in 2003/04 and 2004/05 (in German).

Workshops (reviewed)

1. Ekkart Kindler and Rolf Walter. Message passing mutex. In Jörg Desel, editor, *Structures in Concurrency Theory*, Workshops in Computing, pages 205–219. Berlin, Springer-Verlag, May 1995.
2. Ekkart Kindler. A specification and verification method for caching protocols. In J. Desel and H. Reichel, editors, *Formal Methods for Concurrency, GI-Colloquium*, number TUD/FI 96/16 in *Technische Berichte*, pages 11–16. Technische Universität Dresden, July 1996.
3. Ekkart Kindler and Tobias Vesper. A temporal logic for events and states in Petri nets. In B. Farwer, D. Moldt, and M.-O. Stehr, editors, *Petri Nets in System Engineering (PNSE'97) Modelling, Verification, and Validation*, number FBI-HH-B-205/97 in *Bericht*, pages 101–110. Universität Hamburg, Fachbereich Informatik, September 1997.
4. Ekkart Kindler and Axel Martens. Szenarios: Lokale Kriterien für globale Korrektheit. In K. Spies and B. Schätz, editors, *Formale Beschreibungstechniken für verteilte Systeme, 9. GI/ITG-Fachgespräch*, pages 113–122. Utz Verlag, June 1999.

5. Ekkart Kindler. Serializability, concurrency control and replication control. In G. Saake, K. Schwarz, and C. Türker, editors, *Transactions and Database Dynamics, Proceedings of the Eighth International Workshop on Foundations of Models and Languages for Data and Objects, Schloß Dagstuhl*, pages 98–114, September 1999.
6. Matthias Jünger, Ekkart Kindler, and Michael Weber. Towards a generic interchange format for Petri nets – position paper. In R. Bastide, J. Billington, E. Kindler, F. Kordon, and K. H. Mortensen, editors, *Meeting on XML/SGML based Interchange Formats for Petri Nets*, pages 1–5, June 2000.
7. Jörg Desel and Ekkart Kindler. Petri nets and components – extending the DAWN approach. In D. Moldt, editor, *Workshop on Modelling of Objects, Components, and Agents*, pages 21–35, August 2001.
8. Ekkart Kindler. DAWN for component based systems - just a different view. In J. Desel and M. Weske, editors, *PROMISE 2002 - Prozessorientierte Methoden und Werkzeuge für die Entwicklung von Informationssystemen*, volume P-21 of *GI-Edition, Lecture Notes in Informatics*, pages 7–13, October 2002.
9. Wil van der Aalst, Jörg Desel, and Ekkart Kindler. On the semantics of EPCs: A vicious circle. In M. Nüttgens and F. J. Rump, editors, *EPK 2002, Geschäftsprozessmanagement mit Ereignisgesteuerten Prozessketten*, pages 71–79, November 2002.
10. Ekkart Kindler. On the semantics of EPCs: A framework for resolving the vicious circle – extended abstract. In M. Nüttgens and F. J. Rump, editors, *EPK 2003, Geschäftsprozessmanagement mit Ereignisgesteuerten Prozessketten*, pages 7–18, October 2003.
11. Ekkart Kindler. Using the Petri net markup language for exchanging business processes: Potential and limitations. In M. Nüttgens and J. Mendling, editors, *XML Interchange Formats for Business Process Management*, pages 43–60, March 2004.
12. Nicolas Cuntz and Ekkart Kindler. On the semantics of EPCs: Efficient calculation and simulation. In M. Nüttgens and F. J. Rump, editors, *EPK 2004, Geschäftsprozessmanagement mit Ereignisgesteuerten Prozessketten*, pages 7–26, October 2004.
13. Holger Giese, Ekkart Kindler, Florian Klein, and Robert Wagner. Reconciling scenario-centered controller design with state-based system models. In *Fourth International Workshop on Scenarios and State Machines: Models, Algorithms and Tools (SCESM 05)*, May 2005.
14. Ekkart Kindler, Vladimir Rubin, and Wilhelm Schäfer. Incremental workflow mining based on document versioning information. In M. Li, B. Boehm, and L. J. Osterweil, editors, *Software Process Workshop*, pages 218–232, May 2005.
15. Björn Axenath, Ekkart Kindler, and Vladimir Rubin. An open and formalism independent meta-model for business processes. In E. Kindler and M. Nüttgens, editors, *Workshop on Business Process Reference Models 2005 (BPRM 2005), Satellite event of the third International Conference on Business Process Management*, pages 45–59, September 2005.
16. Ekkart Kindler, Vladimir Rubin, and Robert Wagner. Component tools: Application and integration of formal methods. In *Workshop Object Orientierte Software Entwicklung 2005 (OOSE '05), Satellite event of Net.ObjectDays 2005*, September 2005.
17. Ekkart Kindler, Vladimir Rubin, and Wilhelm Schäfer. Incremental workflow mining based on document versioning information. In M. Li, B. Boehm, and L. J. Osterweil, editors, *Software Process Workshop*, volume 3840 of *LNCS*, pages 287–301. Springer, May 2005.
18. Nicolas Cuntz, Jörn Freiheit, and Ekkart Kindler. On the semantics of EPCs: Faster

- calculation for EPCs with small state spaces. In M. Nüttgens and F. J. Rump, editors, *Geschäftsprozessmanagement mit Ereignisgesteuerten Prozessketten, EPK 2005*, pages 7–23, December 2005.
19. Ekkart Kindler, Vladimir Rubin, and Robert Wagner. Component Tools: Anwendung und Integration Formaler Methoden. In Jürgen Gausemeier, Franz Rammig, Wilhelm Schäfer, Ansgar Trächtler, and Jörg Wallaschek, editors, *Proc. of the 4. Paderborner Workshop Entwurf mechatronischer Systeme*, volume 189 of *HNI-Verlagsschriftenreihe*, pages 305–316, May 2006.
 20. Ekkart Kindler, Vladimir Rubin, and Wilhelm Schäfer. Incremental workflow mining for process flexibility. In *Proc. of the Seventh CAiSE'06 Workshop on Business Process Modeling, Development, and Support (BPMDS'06)*, Luxembourg, pages 178–187, June 2006.
 21. Ekkart Kindler, Vladimir Rubin, and Wilhelm Schäfer. Process mining and Petri net synthesis. In Johann Eder and Schahram Dustdar, editors, *Workshop on Business Process Intelligence*, volume 4103 of *LNCS*, pages 105–116. Springer, September 2006.
 22. Ekkart Kindler and David Schmelter. Aspect-oriented modelling from a different angle: Modelling domains with aspects. In *12th International Workshop on Aspect-Oriented Modelling*, pages 7–12, April 2008.

Newsletter contributions (partly reviewed)

1. Ekkart Kindler and Rolf Walter. Rearranging problems. *Petri Net Newsletter*, 43:5–8, June 1993.
2. Ekkart Kindler. Safety and liveness properties: A survey. *EATCS-Bulletin*, 53:268–272, June 1994.
3. Jörg Desel, Ekkart Kindler, and Rolf Walter. A game of tokens: Proof contest. *Petri Net Newsletter*, 47:3–4, October 1994. Cover Picture Story.
4. Jörg Desel, Ekkart Kindler, and Rolf Walter. The game of tokens: A collection of proofs. *Petri Net Newsletter*, (48):7–14, May 1995. Discussion of proofs for the problem from [3].
5. Ekkart Kindler and Wolfgang Reisig. Algebraic system nets for modelling distributed algorithms. *Petri Net Newsletter*, 51:16–31, December 1996.
6. Ekkart Kindler. Inhibitor arcs: A philosophical view. *Petri Net Newsletter*, 53:3–10, October 1997.
7. Ekkart Kindler and Michael Weber. The dimensions of Petri nets: The Petri net cube. *EATCS Bulletin*, 66:155–166, October 1998.
8. Wil van der Aalst, Ekkart Kindler, and Jörg Desel. Beyond asymmetric choice: A note on some extensions. *Petri Net Newsletter*, 55:3–13, October 1998.
9. Ekkart Kindler. Database theory – Petri net theory – workflow theory. *Petri Net Newsletter*, 55:14–18, October 1998.
10. Ekkart Kindler and Axel Martens. Cross-talk revisited: What’s the problem? *Petri Net Newsletter*, 58:4–10, April 2000.
11. Matthias Jünger, Ekkart Kindler, and Michael Weber. The Petri Net Markup Language. *Petri Net Newsletter*, 59:24–29, October 2000.
12. Ekkart Kindler and Michael Weber. Modules in pictures. *Petri Net Newsletter*, 61:5–8, October 2001.

13. Ekkart Kindler and Frank Nillies. Petri nets and the real world. *Petri Net Newsletter* 70, (70):3–8, April 2006.

Technical Reports

1. Dominik Gomm and Ekkart Kindler. A weakly coherent virtually shared memory scheme: Formal specification and analysis. SFB-Bericht 342/5/91 B, Technische Universität München, August 1991.

1. E. Kindler, W. Reisig, and R. Walter. Advanced tutorial II: Distributed algorithms, modelling and analysis with Petri nets. Tutorial within the 16th International Conference on Application and Theory of Petri Nets, Torino, Italy, June 1995.
2. Ekkart Kindler and Jörg Desel. Der Traum von einem universellen Petrinetz-Werkzeug — Der Petrinetz-Kern. In J. Desel, A. Oberweis, and E. Kindler, editors, *3. Workshop Algorithmen und Werkzeuge für Petrinetze*, number 341 in Forschungsberichte, pages 27–32. Institut AIFB, Universität Karlsruhe, October 1996. (Also published in the proceedings of the Kick-Off-Workshop of the DFG-Project Petrinet-Technology).
3. Ekkart Kindler and Tobias Vesper. Automatisch überprüfbare Beweistechniken für algebraische Petrinetze. In Jörg Desel, Ekkart Kindler, and Andreas Oberweis, editors, *3. Workshop Algorithmen und Werkzeuge für Petrinetze*, number 341 in Forschungsberichte, pages 33–38. Institut AIFB, Universität Karlsruhe, October 1996.
4. J. Desel, E. Kindler, and A. Oberweis, editors. *3. Workshop Algorithmen und Werkzeuge für Petrinetze*, number 341 in Forschungsberichte. Institut AIFB, Universität Karlsruhe, October 1996.
5. E. Kindler, W. Reisig, and R. Walter. Advanced tutorial II: Distributed algorithms, modelling and analysis with Petri nets. Tutorial within the 17th International Conference on Application and Theory of Petri Nets, Osaka, Japan, June 1996.
6. Ekkart Kindler. Der Petrinetz-Kern: Ein einfaches Anwendungsbeispiel. In Desel et al. [7], pages 13–18.
7. J. Desel, E. Kindler, and A. Oberweis, editors. *Algorithmen und Werkzeuge für Petrinetze, 4. Workshop*, number 85 in Informatik-Berichte. Humboldt-Universität zu Berlin, September 1997.
8. Ekkart Kindler. Der Petrinetz-Kern: Ein Traum wird wahr. In H. Ehrig, W. Reisig, and H. Weber, editors, *Move-On-Workshop der DFG-Forschergruppe Petrinetz-Technologie*, pages 121–124. Technische Universität Berlin, 1997.
9. O. Fricke, A. Borusan, T. Vesper, and E. Kindler. Verifikation im Vorgehensmodell anhand eines Beispiels. In H. Ehrig, W. Reisig, and H. Weber, editors, *Move-On-Workshop der DFG-Forschergruppe Petrinetz-Technologie*, pages 97–120. Technische Universität Berlin, 1997.

10. Ekkart Kindler and Sibylle Peuker. Integrating distributed algorithms into distributed systems. In H.-D. Burkhard, L. Czaja, and P. Starke, editors, *Workshop Concurrency, Specification & Programming*, number 110 in Informatik-Berichte, Humboldt-Universität zu Berlin, pages 128–143, September 1998.
11. Thomas Baar and Ekkart Kindler. ILF and DAWN for verifying distributed algorithms – an idea for a tool. In H.-D. Burkhard, L. Czaja, and P. Starke, editors, *Workshop Concurrency, Specification & Programming*, number 110 in Informatik-Berichte, Humboldt-Universität zu Berlin, pages 1–8, September 1998.
12. J. Desel, P. Kemper, E. Kindler, and A. Oberweis, editors. *Algorithmen und Werkzeuge für Petrinetze, 5. Workshop*, number 694 in Forschungsberichte. Universität Dortmund, Fachbereich Informatik, October 1998.
13. Ekkart Kindler and Frank Oschmann. The Petri Net Kernel: An INA-pilot. In J. Desel, P. Kemper, E. Kindler, and A. Oberweis, editors, *Workshop Algorithmen und Werkzeuge für Petrinetze*, number 694 in Research Reports, Universität Dortmund, Fachbereich Informatik, pages 62–66, October 1998.
14. Ekkart Kindler. Workflows, scenarios, and composition. In J. Desel, A. Oberweis, W. Reisig, and G. Rozenberg, editors, *Petri Nets and Business Process Management*, number 217 in Dagstuhl-Seminar-Report, page 16, 1998. Abstract.
15. Ekkart Kindler, Tobias Vesper, and Michael Weber. Application-oriented verification scenarios. In H. Weber, H. Ehrig, and W. Reisig, editors, *Colloquium on Petri Net Technologies for Modelling Communication Based Systems*, pages 279–297. Fraunhofer Gesellschaft ISST, October 1999.
16. R. Bastide, J. Billington, E. Kindler, F. Kordon, and K. H. Mortensen, editors. *Meeting on XML/SGML based Interchange Formats for Petri Nets*, June 2000.
17. Ekkart Kindler and Michael Weber. The Petri Net Kernel. In K. H. Mortensen, editor, *Tool Demonstrations*, pages 71–75, June 2000.
18. Ekkart Kindler. Consistency, causality, Petri nets, and automata. In H.-D. Burkhard, L. Czaja, A. Skowron, and P. Starke, editors, *Workshop Concurrency, Specification & Programming*, pages 93–104, October 2000.
19. Matthias Jünger, Ekkart Kindler, and Michael Weber. The Petri Net Markup Language. In S. Phillipi, editor, *Workshop Algorithmen und Werkzeuge für Petrinetze*, number 7/2000 in Fachberichte Informatik, Universität Koblenz-Landau, pages 47–52, October 2000.
20. Ekkart Kindler and Michael Weber. A universal module concept for Petri nets. In G. Juhas and R. Lorenz, editors, *Workshop Algorithmen und Werkzeuge für Petrinetze*, pages 7–12, October 2001.
21. Ekkart Kindler and Csaba Páles. 3D-visualization of Petri net models: A concept. In G. Juhas and R. Lorenz, editors, *Workshop Algorithmen und Werkzeuge für Petrinetze*, pages 69–78, September 2003.
22. E. Kindler, editor. *Definition, Implementation and Application of a Standard Interchange Format for Petri Nets, Satellite event of the 25th International Conference on Application and Theory of Petri Nets, Proceedings, Bologna, Italy*, June 2004.
23. A. Gepting, J. Greenyer, E. Kindler, A. Maas, S. Munkelt, C. Pales, T. Pivl, O. Rohe, V. Rubin, M. Sander, A. Scholand, C. Wagner, and R. Wagner. Component tools: A vision for a tool. In E. Kindler, editor, *Workshop Algorithmen und Werkzeuge für Petrinetze*, pages 37–42, September 2004.
24. Ekkart Kindler, Vladimir Rubin, and Robert Wagner. An adaptable TGG interpreter for

- in-memory model transformation. In H. Giese, A. Schürr, and A. Zündorf, editors, *FUJABA Days 2004*, pages 35–38, September 2004. Proceedings.
25. E. Kindler, editor. *Algorithmen und Werkzeuge für Petrinetze, 11th Workshop, Paderborn, Germany*, number tr-ri-04-251 in Reihe Informatik. Universität Paderborn, September 2004.
 26. Ekkart Kindler and Frank Nillies. Petri nets and the real world. In K. Schmidt and C. Stahl, editors, *Workshop Algorithmen und Werkzeuge für Petrinetze*, pages 19–24, September 2005.
 27. E. Kindler and M. Nüttgens, editors. *Business Process Reference Models (BPRM 05), Satellite event of the third International Conference on Business Process Management*, September 2005.
 28. Björn Axenath, Ekkart Kindler, and Vladimir Rubin. AMFIBIA: A meta-model for the integration of business process modelling aspects. In Frank Leymann, Wolfgang Reisig, Satish R. Thatte, and Wil van der Aalst, editors, *The Role of Business Processes in Service Oriented Architectures, Post-proceedings of the Dagstuhl Seminar*, number 06291 in Dagstuhl Seminar Proceedings. Internationales Begegnungs- und Forschungszentrum fuer Informatik (IBFI), Schloss Dagstuhl, Germany, July 2006.
 29. Ekkart Kindler. Modular PNML revisited: Some ideas for strict typing. In Stephan Philippi and Alexander Pinl, editors, *14. Workshop on Algorithmen und Werkzeuge für Petri Netze*, pages 20–25, September 2007.
